

REPUBLIC OF KENYA

MINISTRY OF HIGHER EDUCATION, SCIENCE AND TECHNOLOGY

PRESS STATEMENT ON TECHNICAL, VOCATIONAL EDUCATION AND TRAINING (TVET) INSTITUTIONS IN KENYA

The Ministry of Higher Education, Science and Technology wishes to update the public on the above subject matter.

Last year, the Ministry issued two press statements on 26th August 2010 and 30th November 2010 on the registration status of TVET institutions in Kenya. In the statements, training providers were advised to comply with all the registration requirements as provided for in accordance with the Education Act Cap 211 Section 15.

The registration status has since been revised and the status as at 10th January 2011 is as follows:-

1. There are currently 386 TVET institutions with full registration certificates.
2. A total of 114 TVET institutions are operating with valid provisional registration certificates, which will expire after the lapse of 18 months from the date of issue.
3. Another 369 TVET institutions in our records have expired provisional registration certificates and have continued to operate without seeking full registration status after the expiry of the 18 months as provided for by the Education Act.

Since the first publication of the registered institutions on 26th August 2010, two hundred and four (204) institutions have made formal application to the Ministry and their applications are at various stages of processing. Once the processing is completed, details of institutions that have qualified for registration are added to the list of registered institutions and the same updated on a daily basis on the Ministry's website (www.scienceandtechnology.go.ke).

In the press release of 30th November 2010, the Ministry gave an assurance to the general public that institutions operating without registration shall be closed in the second week of January 2011. The Ministry is therefore set to fulfill this promise by carrying out a countrywide closure of unregistered institutions, in order to serve as a lesson to those who are operating illegally. The closure will be as provided for in the Education Act Cap 211 Section 36(a) and will focus on the following institutions:-

1. Institutions that have not applied for registration and are continuing to operate. A list of one

hundred and eleven (111) of these institutions initially identified is published elsewhere. The process of identification will continue until all institutions operating illegally are closed.

2. Institutions with expired provisional registration and have not applied for full registration.

All training institutions that are operating under other Acts of Parliament and any other government authority are not affected by this national exercise.

All TVET institutions operating under the Education Act are once again reminded to display their registration certificates conspicuously in their front office for ease of reference by parents, students, ministry officials and the general public.

Parents/guardians, sponsors and prospective applicants are again advised that before applying for admission to any institution they should first establish whether the institution is registered by either contacting our Provincial offices, our offices at Teleposta Towers Nairobi, visiting the Ministry's website www.scienceandtechnology.go.ke or write to

**The Director,
Technical Accreditation and Quality Assurance
P.O Box 9583-00200, Nairobi.
Teleposta Towers 25th Floor,
Telephone 0202217210/1/2/6/8/9 or 020-8029426
Email dtaqa@scienceandtechnology.go.ke**

Parents who may have enrolled students in unregistered institutions should also make arrangements to relocate them to legally registered institutions. The Ministry has published elsewhere the names and locations of the registered training institutions, institutions with expired provisional certificates and those already identified for immediate closure.

The list of registered institutions is not conclusive and will be updated on daily basis on the Ministry's website to reflect the changes in the registration status.

LIST OF 386 FULLY REGISTERED TVET INSTITUTIONS AS AT 10/1/2011 4:41 PM

S.NO	NAME	TYPE	REGISTRATION NO.	TOWN/DISTRICT
